Get Ready!

2 Activity Book

Felicity Hopkins

Oxford University Press

Notes for the teacher

Get Ready! is a two-level course which aims to give pupils a feel for English and to establish a sound basis for later learning. Activity Book 2 is designed to provide further practice of the language and the skills introduced in Pupil's Book 2 and Handwriting Book 2.

Each level of *Get Ready!* is divided into sixty steps. Each step in the Activity Book is one page and it should not be used until pupils have completed the equivalent steps in the Pupil's Book (one page) and Handwriting Book (half a page). *Get Ready!* also has a Numbers Book for each level. Each Numbers Book is divided into sixty half-page steps intended for use after the equivalent steps in the Activity Book. The sequence for a complete step is therefore as follows:

Oral Work

The Activity Book provides reinforcement of the oral work in the Pupil's Book. For example, Step 20 ('Match and trace') provides an opportunity for question and answer routines using *Where is ... ?* Some steps (e.g. Step 50) have oral practice as their main aim.

Reading

There is no 'real' reading in *Get Ready!*. In level 1 pupils will learn to recognize letters of the alphabet, acquire left-right orientation and be able to recognize some whole words. In level 2 this pre-reading is extended to include a few simple sentences (e.g. Steps 49 and 58). In the

Activity Book pupils are only expected to read the words or letters in large print. They look like this:

T X D
a red dress

Words in small print are to indicate to the teacher the language the pupils should be using orally. They look like this:

Jo-Jo likes dolls.

Writing

Activity Book 1 provides opportunities for colouring and drawing. These are important for the development of motor skills. Activity Book 2 continues this development, giving pupils extra practice in writing both single letters and whole words. These exercises are carefully matched to the sequence in the Handwriting Book and it is important to use the Activity Book only when the equivalent step in the Handwriting Book has been completed.

The Approach

Although much of the work in Activity Book 2 has been designed for pupils to do on their own, the teacher should always demonstrate first of all on the blackboard, explaining where necessary in the pupils' mother tongue. It is also a good idea to revise the language area being practised. The aim is for pupils to succeed and build up confidence about learning English. This will not happen if they are insecure or if they feel that they are constantly being tested.

Get Ready! Teachers Book 2 provides full notes on how to use each page of Activity Book 2.

STEP 1

Read and colour

1 = blue 2 = green 3 = red 4 = brown

Join the letters

STEP 2

Match

h

d

t

v

b

Write the first letters

STEP 3

Join the numbers
